Global social reference frame

The *global social reference frame* ($\sigma\phi\tau$) is the planetary macrocosm of population (π), law (λ), government (γ), economy (ρ), and time (τ). [2021/06/03 1, 2021/06/04 1, 2021/06/05 1, 2021/06/06 0, 2021/06/07 0, 2021/06/14 1, 2021/06/15 1]

$$\sigma_{\phi} = \pi_{\phi} + \lambda_{\phi} + \gamma_{\phi} + \rho_{\phi} + \tau_{\phi}$$

The effect of government is the product of purpose or accident. The population has a state of being. Each nation is a collection of characters. The effect of each has a character of peace or violence.

Our sustenance and development is represented by the sovereignty of humanity. Unfortunately, the sovereignty of humanity is in a state of flux. It is degraded by violence and opacity, and reinforced by peace and transparency. It should be universally understood that standing together in solidarity we have our sustenance and development in the sovereignty of humanity. And divided we fall. To greed, exploitation, ignorance, and fear. The simple error of enormous tragedy. The error of inhumanity.
